

CHIRO ENDURANCE COLLECTION

EXCLUSIVE TO

Sleepy's
The Mattress Experts

Our Endurance range offers the latest technology, choice, support and comfort for your individual body shape and size.

sleepys.com.au

Not too firm, not too soft...

A bed that is too firm will elevate your hips and shoulders, causing your spine to sag in the lower back region. Similarly a bed that is too soft will cause your spine to sag at the hips, resulting in pressure on the spine that can lead to restless sleep. And all this happens while you aren't even aware!

Support technology

5 is indeed the magic number when it comes to spring zones. The CAA recognises the superior benefits of a 5 zone spring system like the Miracoli Advance. The 5 alternating comfort and support zones in the Chiro Spring support system assists to align your spine to ensure you have a healthy night's sleep on the Chiro Endurance.

Comfort system

The quilt layer in this collection is a technology developed by SleepMaker called Climatex quilt. It is a quilted sleep surface which uses two or more layers of dreamfoam with high loft fibre sandwiched in between. The Chiro Endurance includes quality Dunlop foam. Available in three feels, this mattress

Consistently one of Sleepy's top selling ranges, this collection has been tested and endorsed by the Chiropractors' Association of Australia and offers a great introduction to the CAA range both in price and support technology. Sleeping healthy is easier with Sleepy's and the CAA collection!
